## **Virtual Group Consultations**

**Linking you up with your healthcare team during COVID  
and  
social isolation**

**We want to support you to keep well and offer guidance and support  
through these periods of social isolation**

We are delighted to announce that we will be delivering Virtual Group Consultations for your next appointment. This will mean that you will get to spend longer with your clinician and wider healthcare team and be linked up with other people living with the same or similar health condition and challenges as you.

### **What are Virtual Group Consultations?**

Virtual Group consultations are 1 to 1 appointments carried out via video in a group setting. This allows you to connect with your clinician as if they are in the room with you. Having other people in this appointment allows you to be connected and support each other through this period of social isolation /COVID

**We know that Group Consultations improve health outcomes and  
experience of care for people and we look forward to seeing you at your  
Virtual Group Consultation appointment on**
