

## Etiquette and Understandings

### Key principles of us working together to get the best from our Virtual Group Consultation today

- Be curious, respectful and listen to others in the group
- Please advise us if you have a carer/advocate present
- Ensure you are in a quiet private space
- Allow us to keep things to time - with one person talking at a time this will help us all to get the best from today's session
- Respect confidentiality - no photos, screen shots or recordings allowed
- Share thoughts, relevant advice and offer support for other members of the group
- Any other?
